The noted boardwalk has been torn up for scores of yards, and it was with great difficulty that the adjoining bathing houses were saved. Enormous oak pilings were at once driven deep in the sand and clay sub-stratum; and the heaviest bulkheads ever seen here have been formed. historic time when this spot was a cedar swamp.

The damage done by the attack of the sea was all repaired last evening, so far as the boardwalk was concerned. The incalculable tons of sand washed away have, however, left a gap in the beach and bething grounds which only the slow reformation of the beach can fill in many months. "Founder" James A. Bradley appounced by circular yesterday that he would hold a "Neptune Jubilee" at the repaired portion of the boardwalk last evening. The jubilee consisted in short speeches and military music by the beach bands.

Mr. Bradley owns the beach and all riparian rights. Therefore the burden of repairing the walk and cuts in the beach as well as the mantenance of beach lights, pavillons and bathing matters, fail upon him. This expense is considerably over \$25,000 yearly. He is recompensed by the business at the three bathing grounds, sales of lets and so on.

WARFARE AGAINST LIQUOR. Since their origin and during 20 years of unprecedent development, not a drop of liquor has been sold as a beverage in Asbury Park or Ocean Grove. A clause in the charter of each community and a reservation in the deeds granted by James A. Bradley and in the leases sold by the Ocean Grove Campmeeting Association provides for the reversion of the estates granted to the original owners, if liquor selling be permitted. The State laws, under which these proprietors gained corporation privileges, provide for the exclusion of all liquor dealers within a mile of either resort.

So rapid have both communities outgrown the expectations of their temperate and religous founders that the restriction is enforced now, only in a measure; and, it cannot truthfully be averred that intemperance is wholly banished in either Ocean Grove or Asbury Park. Many of the drugstores in Asbury Park have done a flourishing business in handling "wet goods" for the past 12 years. The profits are so great that but few cau resist the temptation. To-day there is a warrant out for the arrest of Robert B. Cusack for selling liquor without a prescription. Ocean Grove. A clause in the charter of each

without a prescription. THE DRUGSTORE SALOONS. At the drugstores which sell liquor there is

a well-equipped bar, and admission is easily gained. Prices are about double ordinary saloon charges. It has been claimed that these stores employ "runners" who inform the bibu-lous where they can easily and safely slake their thirst with a supply of the ardent. Some bootblacks along the beach and at the hotels bootblacks along the beach and at the hotels are instructed to quietly sound their patrons; and, if all is well, they then hand to their customers cards bearing the address of the stores. By cautiously approaching the clerks at the "pharmacy" and showing a card, almost anyone will be introduced to a little back room where nothing is lacking in the way of beer, ale or stronger drinks of any kind. The bootblacks and other agents of the drugstorer receive a comprission for every man they send.

Anyone with a physician's prescription for spiritus fermenti, or anything else, can have it filled, carry it away and have no questions asked. Nearly all the drugstores readily fill such orders, and some of the doctors write them freely.

freely.

The hotels are not reluctant as a rule in filling the orders of good paying guest. There are very few hotels not supplied regularly with cases of beer, enampague and packages of other similar refreshment. Large quantities, from a case to a barrel, are easily obtained from Avon, Long Branch or Red Bank. The greater part, however, supplied to cottage and hotel people comes from New York and Philadelphia by freight or express.

HOW ONE HOTEL WORKS IT. One hotel has hit upon the brilliant scheme of providing its guests with order cards. Supplied with these, the boarders fill them out and their waiters bring on the sparkling draughts. These cards read as follows: "Please serve from my private stock - bottles of - and charge corkage to my account. "The charge appears in the weekly bills for enter-

Even Ocean Grove cannot escape the people with an inclination to "take something for their stomach's sake." Numbers of hotel men, in the great campmecting resort, assert that hardly a trunk comes into their houses that does not contain liquors to be used, presumably in cases of emergency. And the emergency is sure to arise after a cool bath fit the sea or a warm walk in the sun. The Ocean Grove authorities own the two drugstores within their furisdiction and lease them on short terms to carefully watched men. A mere suspicion is sufficient ground for withholding the renewal of a lease, and, besides, every prescription for spirituous liquors is recorded and reported to the association. The druggists are not permitted to fill a physician's prescription unless it come from a resident practitioner in Asbury Park or Ocean Grove. And he must further have registered his diploma at the county seat and at the office of the Ocean Grove Campmeeting Association. Even Ocean Grove cannot escape the people

"Every such prescription shall be recorded in a special book for the purpose, which shall give the article prescribed, quantity, physician's name, patient's name, and address and date. "No prescription shall be renewed without a new prescription from the physician in charge. "No copies of prescriptions for liquors shall be given, and the original prescription shall be retained by the druggist.

"The sale of such articles as "Scheidam Schnopps", 'Wild Cherry,' and the various so-called nitters are forbidden."

co in any form; and it cannot be obtained at any store in Ocean Grove. Many of the hotels, how-ever, sell cigars more or less openly, although ever, sell cigars more or less openly, although this is punished, when found out, by a fine of \$5 ever, sell cigars more or less openly, although this is punished, when found out, by a fine of \$5 for each and every offense.

Yet, while infractions of the association or dinance at the Ocean Grove drug stores are few and far between, the thirsty and knowing are easily supplied by sundry persons whose secret trade is not so much as suspected, even when an occasional policeman is seen staggering about the camp grounds. Certain hotels have back passageways leading to cool rooms where beer and whisky are sold under pledge of secrecy and at prices that would appail the ordinary drinker. As a cry of horror would arise from the entire community if these places were disclosed, and the consequences would be fatal to the continuance of their proprietors in Ocean Grove, the business is conducted in the most cautious manner imaginable. Though there are more intermerate men seen at the hotels and on the beach and walks at these twin resorts, Ocean Grove and Asbury Park, than ever before, yet the proportion is probably less than when the resorts contained but a few thousand people. Now there are, as railroad statistics show, nearly 2,000,000 visitors here each year.

FOUNDER BRADLEY A NEWSDEALER. Sunday papers have been selling all summer at 10 cents each by the newsdealers. Mr. Bradley has determined to break the combination and secure the papers for visitors here at 5 or 7 cents. Last Sunday he purchased a large or 7 cents. Last Sunday he purchased a large quantity of the dealers and the Union News Company at 7 cents and employed boys to sell them at 5 cents each. This procedure almost destroys the Sunday business of the newsdoalers and alightly affects the monopoly controlled by the Union News Company. The dealers say the founder should attack the news company, which controls all sales along this coast, and so enable local newsdealers to sell at a lower price. To-morrow, Mr. Bradley will again handle these papers at less than he pays for them.

The tenth national temperance campuseting has been in progress since Wednesday. Mra. Mary A. Livermore, of Boston, made a remarkable address on "A Dream of To-morrow" on Saurday evening. To-morrow, Sunday, the Rev. Dr. A. B. Leonard, of New York, will preach in the auditorium on touperance work. It is the twentieth anniversary of the Ocean Grove Campuseting Association, and in the evening Bishop W. F. Mallalier, of New Orleans, will preach. The assembly will terminate with to-morrow's meetings.

PROUD OF THEIR SIGNATURES. . One of the fads with the old-timers is to exhibit their signatures on the ancient hotel reg-isters to their grandchildren. To-day a promi-nent old gentleman from Pittsburg hunted up a register that was used back in the forties and showed his grandson where he had for the first time written "and wife" after his name. He came to Bedford by stage from Pittsburg and spent his honeymoon here.

STEVENS CHAIR CO.,

The weather at the leading summer resorts was delightful almost all of last week, and the office of sweitering pleasure-seekers from the busy cities was greater than ever. Atlantic City has almost been taken possession of by Pittsburgers and the fun is fast and furious. Cape May is greatly interested in its two dis tinguished guests, Blaine and Harrison, and Cresson Springs people are awaiting the arrival of the Presidental family there with great anxiety. Pittsburgers take the lead in the popular entertainments at Bedford Springs.
Ontario Beach is holding out attractions that
Gas City people will no doubt be unable to resust. Chautauqua is having its busiest season and the two cities at the head of the Ohio are well represented there. The cool evenings at the resorts make the worship of Terpsichore possible, and balls are reported from everywhere. The season is at its height.

Two of the interesting characters that have been here this week are Mr. W. E. Curtis, the executive officer of the Pan-American Congress, and Rev. Dr. M. C. ISPICIAL TELEGRAM TO THE DISPATCH. ATLANTIC CITY, August 2.- The people associated with the Reading Railroad in the project of a million dollar hotel for North Atlantic City are meeting with opposition. Although Council granted unanimously the use of Massachusetts avenue for its tracks to make possible the big depot which goes with the hotel, property owners are contemplating in-junctions. The railroad people are ready to abaudon the privilege of a double track on the avenue: but even then, it is said, some prop-erty owners will fight. The company has a

great many options, and threatens to forfeit them and go elsewhere. The hotel, it is understood, is not to be built by the railroad, but by stood, is not to be built by the railroad, but by capitalists working with it.

Another sad death is recorded here. A bright young lad, not quite 15, who was alive and apparently hearty considerably less than a week ago, was taken to his home in Pittsburg to-day in his coffin. His name was Fred Fisher, I. He was the son of Fred Fisher, a well known oil merchant of Pittsburg. The event cast gloom over the guests of the hotel where he and his parents were guests.

PETECIAL TELEGRAM TO THE DISPATCH. CAPE MAY, N. J., August 2-The last week has been delightful at the seashore. The rains have ceased, the temperature is perfect, and nature never before flung out banners of sumwelcome in a more enticing manner. It has not been quite as good a week as was the last one, but this evening the place is well crowded again by the best of society. All the hotels, except two are crowded, and even turning people away because of lack of accommodation. In order that this state of affairs may

be remedied it is expected that several smaller hotels will be erected next winter. President Harrison came here Wednesday evening, and quite surprised the natives. He was not expected until the following evening. In thinking the matter over he felt that if he left 24 hours ahead he could avoid the immense crowds that gather about the various stations on the route. He is expected to remain until Tuesday, and Mr. Blaine's visit is the talk of the place. The coming of men high in office to Cape May calls to mind the fact that in times gone by five Presidents and many other men of national fame have visited Cape May.

HENRY CLAY'S VISIT. Among the first prominent men to visit Cape May was Henry Clay, the greatest statesman of his time. This was in 1847. As soon as the news of his expected arrival spread Cape May began to fill up. Among the first to arrive was began to fil up. Among the first to arrive was United States Senator James A. Bayard, of Delaware, followed by big crowds from New York and Philadelphia. On the morning of Monday, August 16, the great statesman with his party left Pulladelphia on a steamboat, then the only means of access to the Cape, and arrived at the island about 1 o'clock in the afternoon. There was a rousing reception and a big dinner and next day Mr. Clay spoke. About 7 o'clock on the morning of Friday, August 20, 1847, the steamboat New Haven let all her anchor opposite the place, having left New

gust 20, 1847, the steamboat New Haven let tall her anchor opposite the place, having left New York the previous afternoon with a number of eminent citizens to invite Mr. Clay to visit that city. Among them were Recorder Tallmadge, Nicholas Deane, M. G. Hart, Morris Franklin, Horace Greeley, Matthew L. Davis and James A. Coffin. However Mr. Clay decided to accept on account of his health. THE PRESIDENTAL GUESTS. The first President to visit Cape May was Franklin Pierce, who visited the island in 1855. He was welcomed by the City Council, and a public reception was beid. Mr. Buchanan public reception was beid. Ar. Buchanan paid an extended visit after the war, but was not at the Cape any time during his official term. The Rev. E. Y. Buchanan, a brother of the late President, who is over 90, has been spending every season here in his cottage. This year he did not come, but his cottage is occupied by ex-President Harrity, of Philadelphia, the late ex-Democratic State Chairman of Pennsylvania.

President Grant was a visitor here for five different summers. He stopped at old Congress Hall (burned in 1878). One year he brought his entire Cabinet with him.
